REVELATION BEGINS:

Well, after a while I gave up hope in having any solid and long lasting relationship with a woman, simply because it seems that all of them are a bit nutty and have no clue what they want, so I'm joining the "playa club". It seems that the more you give the less you get back, so from now on It's all one-night stands, hot cars and parties and I pretty much have what it takes to live that lifestyle. Who said that settling down is a must.

I can be an unemotional fuck instead of goody two shoes. I'll give em something to complain about to their girlfriends.

Maybe you'll say it's about time I realized that, but I guess I'm a slow learner. :) I'll be the shallowest guy in the world from now on.

Well, just wanted to let you know, it's official. Call me Boz the pimp from now on. :)

As you were.

1977 1 day ago		<div>simply because it seems that all of them are a bit nutty and have no clue what they want</div> <p>My last girlfriend wasn't like that at all. She was right the opposite. But I am like that, so I lost her 🙄 Stereotyping women is no good if you wanna find one 🙄 Anyways it's a matter of statistics. Most people out there, men or women, are nutty. Or just not well balanced. So it's kinda hard finding someone who's not nutty and in addition may like you.</p>

Boz 1 day ago		first of all, I do not wear jean shorts and black sneakers. I had a goatee in the pic but everything else is not like that. What does my workspace has anything to with my revelation? It's how I make money so it really has no influence on anything else, you haven't seen the rest of my of my home nor my bedroom for that matter (hope you never do :)) so you really can't base your conclusions on anything. Second, I just bought a new house with hot stuff and all the pimpin' goodies.

- I just wanted to make a comment at your smartass observation. I never said that I was a playa in that picture or that I was playa before. I just said that I'm going to become one because I lost respect for women.
- When you post comments, make sure you read and understand the essence of the post.
- The whole thread was actually more of a sarcastic joke, but you people get so freakin' randy about anything it's fucking unbelievable. I would like to see your ugly mugs and how cool you really are. I don't think that you have the balls to show your pimple faces publicly anyways. Come on, show your super sexy bods, designer clothing and whatever. I dare ya.
- Some people are ok here and try to make a funny joke and that really doesn't offend me, I really laugh at it too, but it's very interesting to see how harsh and relentless some of you really are. I think it all comes to domestic eduction or lack of it, or maybe just you are very angry at your personal life so you find Yayhooray to be your blow-off valve. It's ok, I understand. Some people here take themselves too serious. You just can't fucking feel good until you start fucking insulting people. You know what, I'm fucking done. If you can't go along with a joke then you need some help.

@skurk:
WTF is your problem too do you really think that I USE FUCKING WORD PLAYA to describe anything in real life? What pricks. I fucking finished 2 colleges both in Europe and in the States and I don't need to prove anything.

 Oh, I know what you meant. But I just envisioned a car with a horse on the hood and a dumb blonde ogling it going "Oooh, horsies!"

 Seriously. If you ever walk into a woman's house and she has "Women & Horses Magazine" on her coffee table she's either:

1) Dale Evans
2) Catherine the Great

In either case she's dead so you're a creepy necrophiliac.
